Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 26 is objected to in that “the” should be inserted after “receive” in line 6 of claim 1 for clarity. Correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 30, 31, 34 and 37-43 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The lack of an antecedent for “said a single integrated component” in line 1 of claim 30, “said transducer” in line 2 of claim 30, “the single integrated component” in line 1 of claim 31, “the transducer” in line 2 of claim 34, “said imaged spectrum” in line 2 of claim 37 and “said digital signal spectrum reconstruction and enhancement algorithms” bridging lines 3 and 4 of claim 38 renders these claims and any claim dependent therefrom indefinite. Correction is required.

The method set forth in claims 38-43 is confusing/incomplete in that “applying to said digital signal spectrum reconstruction and enhancement algorithms to augment said digital signal” bridging lines 3 and 4 of independent claim 38 is not understood. Additionally, claim 39 fails to set forth what the incident signal of known spectra is applied to. The method must be set forth in active steps, in operative sequence for an end result.

Allowable Subject Matter

Claims 26-29, 32, 33, 35 and 36 are allowable over the prior art of record.

As to claim 26, the prior art of record, taken alone or in combination, fails to disclose or render obvious a spectrometric device comprising a processor including a digital signal processor operable to receive a digital signal representative of the spectrum and apply thereto spectrum reconstruction and enhancement algorithms and thereby augment said digital signal, in combination with the rest of the limitations of the claim.

Remarks

In the specification, the amendments made to pages 12, 16, 17, m19, 23, 24, 26, 27 29, 30, 32 and 33 in order to correct symbols for which fonts did not properly print do not introduce any new matter into the disclosure in that the relationships corrected find correspondence in parent application Serial No. 09/459,640.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR § 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR §

Art Unit: 2877

1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
